

Academic Guidelines for Student Athletes

Extra Curricular activity eligibility will be determined through the by-laws of the IESA:

2.041 All contestants shall be in grades five through eight and shall not have passed eighth-grade standing.

2.042 A student shall be doing passing work as determined by the local school district in all school subjects and the school shall certify compliance with this By-Law. Use of a player, contestant, or participant shall be deemed such certification.

2.043 For all IESA activities, athletic as well as non-athletic, passing work shall be checked weekly to govern eligibility for the following Monday through Saturday. Students must be passing each subject each week to be eligible. For fall sports, the first eligibility check shall be made following the first full week of attendance at the beginning of the school year. During the succeeding weeks of the school year, the eligibility check shall begin the week prior to the first contest in an activity.

2.044 The eligibility check shall be the same day each week unless school is not in session; then it must be taken on the last day of student attendance that week.

2.045 Grades shall be accumulative for the school's grading period.

Extra Curricular activity eligibility procedures:

1. A weekly grade check for all student athletes will be conducted every Wednesday, by administration.
(Teachers are required to enter all grades every Wednesday by 3:30 pm.)
2. Administration will notify coaches regarding student athletes who fail to meet the weekly eligibility requirement every Friday.
3. Coaches will notify student athletes regarding ineligibility for the following week.
4. Student athletes will be required to attend practice during the week of ineligibility, but will not be allowed to dress on game/competition days.

Eligibility/ineligibility for student athletes is in effect from the upcoming Monday through Saturday.

DETACH AND RETURN

I have read the above academic guidelines for student athletes.
