| <input type="checkbox"/> | Current IEP (if applicable). |
| <input type="checkbox"/> | 906 Placement Form – Caseworker Name – Agency Information (if applicable). |

Illinois law indicates that a school district must establish free schools to accommodate students who reside within the District. Boards of Education have a statutory duty to charge tuition to parents or guardians of nonresident students. However, District 150 **does not accept out of district students**. All students in District 150 are required to verify that they reside within the boundaries of the District.

Rulings by Courts of Law, including the Supreme Court, have resulted in the creation of certain criteria to use in determination of residency. The general rule is that a student is considered a resident of the District in which his or her parents reside. In all cases, a student does not have the right to attend school tuition-free if the student moved into the school area or district primarily for the purpose of attending a specific school.

Guardianship papers are not sufficient evidence that a student is a legal resident in the District. The applicant must prove that the guardian has full legal custody and control of the student for an indefinite period of time. The guardian must also prove that the reason for transfer of custody and control is not related to school attendance.

RESIDENCY is established where the family legally lives. A person cannot have permanent residence in two places at the same time.

*** If you do not own the home, further documents will be required, one of which will be the signed and notarized Residency Verification from the property owner.**

Your family must be living in the home prior to your child's being admitted in school.

After all of the above requirements have been properly taken care of, the child's file will be processed and **placement of your child will take 1 to 2 school days**. You will be contacted by the school with your child's room assignment.

NOTE: It is contrary to the policy of the Board of Education to admit students who do not legally reside with their parents or legal guardians within the District boundaries. The information you provide will be used by school officials to help determine the residency of each student seeking enrollment. Falsification of information on this form or otherwise submitted to the District may result in your child being excluded from school, and may expose you to monetary liability under Illinois law for payment of tuition for such time as your child was illegally enrolled in the District. Further, any person who knowingly or willingly presents any false information regarding the residency of a student for the purpose of enabling that student to attend any school in the District on a tuition-free basis a Class C misdemeanor, punishable by up to 30 days in jail, a two-year probation, and/or a \$1,500 fine, in addition to the per capital tuition charge of \$8,571.19 per student falsely enrolled. (105 ILCS 5/10-20.12b & 730 ILCS 5/5-4.5-65).
